

## Medical help at the touch of a button

That's what Evangelical Lifeline offers you. By linking your home, the Lifeline response center, and help, Evangelical Lifeline gives you and your loved ones the security to pursue a normal lifestyle in your own home. The response center's specially-trained staff provides 24-hour monitoring, every day of the year.

### Lifeline is perfect for:

- Older adults living on their own
- People with a history of falling
- People with mobility impaired by a stroke, recent fractures, arthritis, or crippling illnesses, such as multiple sclerosis
- Recent heart attack victims
- Disabled or handicapped individuals
- Parents of children with high-risk conditions
- Postoperative patients
- Family members needing time away from care giving responsibilities but needing to maintain contact
- Anyone concerned about personal safety

### Simple and Effective

All you need is a Lifeline unit and a Personal Help Button to enjoy the comfort offered by this system. The small, portable Personal Help Button can be worn around your neck or on the wrist like a bracelet or watch, so it is accessible at all times. Also, a Lifeline Communicator is connected to your telephone line.

Continue living in the  
*comfort of your  
own home!*

# Live More Independently!

*Get prompt, caring assistance 24 hours a day, 365 days a year.*

# How the Lifeline System Works

1

## Summon Help

If you need help, all you have to do is push the Personal Help Button and a call is automatically sent to the Lifeline response center.

2

## Hear a reassuring voice

When your call is received, highly-trained personnel will first attempt to contact you through your Lifeline monitor to assess the situation.

3

## Know help is on the way

If assistance is needed, they will contact one of your “responders”— nearby friends or relatives whom you previously designated. For more serious situations, an ambulance or the police will be dispatched.
